Packaging

Vana Tallinn Yoghurt Cream's minimalist appearance reflects the new, light and playful product inside. The bottle could be likened to a snow-white canvas that encourages you to break free of boring social strictures and allow more spontaneous decisions into your life. Vana Tallinn Yoghurt Cream stands out –white is the new colourful!

Flavour & aroma

Vana Tallinn Yoghurt Cream is made from real yoghurt. The subtly orchestrated duet of rum and yoghurt surprises with its velvety soft texture. Vanilla and fresh citrus provide the stronger notes in Vana Tallinn Yoghurt Cream's bouquet; pineapple adds accents and full-cream ice cream and Greek yoghurt add richness.
