THE PRODUCT

Vana Tallinn is an exceptional liqueur. Vanilla pods, citrus peel, lemon and sweet and bitter oranges blended with Jamaican rum give the drink its unique velvety, exotic flavour. However, the drink gets its intriguingly bitter flavour and exotic aroma from cinnamon bark. We only use natural ingredients.

THE BRAND

Vana Tallinn is one of the most known brands associated with Estonia. The legendary liqueur has been in continuous production since the 1960s. Vana Tallinn is the Estonian trademark with the biggest global distribution network. In short, Vana Tallinn is world’s most popular Estonian liqueur. A true patriot and ambassador of Estonia abroad.

THE TASTE

The exact recipe of Vana Tallinn is as closely guarded as a state secret. The recipe is hand down only from one liqueur craftsman to the other. Vanilla pods, orange, pinch of cinnamon, lemon and bitter orange oils mixed with Jamaican rum give the drink a unique velvety and exotic flavour. Only natural components are used in the almost 30 day creation process. A lot of production is done by people, not by machines. We think people are the best judge of true liqueur.

THE AROMA

A splendid combination of citrus, toffee, caramel and warm spices.

THE PRODUCT RANGE

The product range of Vana Tallinn has something for every company and mood. It is available with different alcohol content – classic 40%, a bit stronger 45% and even extravagant 50% vol. Vana Tallinn product range includes also cream liqueurs Vana Tallinn Cream, wintery editions Vana Tallinn Glögi and Vana Tallinn Winter Spice, for special moments Vana Tallinn Heritage and Vana Tallinn Signature.

In addition, the beverages are also available in different packaging – just so that our flavours and appearance would ideally fit the moment they are enjoyed in.
